The current website is..

<https://www.cancer.gov/about-nci/organization/ccct/ctrp>

However, I think we should only include the ctro email address and not the url.

Please create a tracker.

Thanks.

Please see the forwarded email below. The link <http://www.cancer.gov/ncictrp> gives a page not found error.

Is this a bug or is this something that was planned to be changed later
